

Cambs LTA Parent information plan

2018-19

Cambs LTA has reflected on the service provided to parents, and incorporated feedback from you, to develop the planned schedule of actions below to improve our information provision to you this year.

- Provide County team age group calendars (October)
- Provide communication of all team selections with a months notice
- Continue to report termly around player training and competitive programmes, progress, group contribution and this year county commitment linked to subsidised county training provided.
- Hills Rd will introduce a termly opportunity during squad times (week 7) for parents to speak directly with coaches regarding their child's progress and any other questions they would like to ask or feedback to provide.
- Deliver the LTA's 'Optimal parenting in competition' workshops – we've had one at Hills Rd already and plan to deliver one at David Lloyd, Cambridge in the new year.

We will also produce information presentations to the following groups of players;

- U8 starter events – spring
- U8 regularly competing juniors – December 2nd during county training session
- U10 green to yellow ball transition – March and July
- 14+ - June during county training session
- New ATA parents – June

You will be directly invited to these sessions – more information to follow and we would really value any feedback you have around what you'd like covered at any of the sessions above.
